3. Without limitation to the foregoing, this ESCP sets out material measures and actions that the Borrower shall carry out or cause to be carried out, including, as applicable, the timeframes of the actions and measures, institutional, staffing, training, monitoring and reporting arrangements, and grievance management. The ESCP also sets out the environmental and social (E&S) instruments that shall be adopted and implemented under the Project, all of which shall be subject to prior consultation and disclosure, consistent with the ESS, and in form and substance, and in a manner acceptable to the Bank. Once adopted, said E&S instruments may be revised from time to time with prior written agreement by the Bank.
4. As agreed between the Bank and the Borrower, this ESCP will be revised from time to time, if necessary, during Project implementation, to reflect adaptive management of Project changes and unforeseen circumstances or in response to assessment of the Project’s performance. In such circumstances, the Borrower, through MISPAS and MIVHED, and the Bank agree to update the ESCP to reflect these changes through an exchange of letters signed between the Bank and the Ministers of MISPAS and of MIVHED.
